

SHOCKWAVE 2000 - Med Line

RADIAL SHOCKWAVE DEVICE | 66 PROGRAMS

THE SHOCKWAVE 2000 MED LINE IS A GLOBUS RADIAL SHOCKWAVE DEVICE THAT EMITS HIGH-ENERGY ACOUSTIC PULSES USED TO STIMULATE THE BODY'S NATURAL HEALING PROCESS. IT IS A NON-INVASIVE TREATMENT METHOD THAT ACTS THROUGH MECHANICAL PRESSURE ON THE TISSUES, PROMOTING NEO-ANGIOGENESIS, REDUCING INFLAMMATION AND PAIN. IT IS PARTICULARLY EFFECTIVE IN TREATING TENDON MUSCLE, AND FASCIAL PROBLEMS AND PROMOTING TISSUES REGENERATION.

TECHNICAL FEATURES

Technology

Pneumatic

Pressure

1 - 5 Bar

Frequency

1 - 20Hz

Channels

2 (not usable simultaneously)

No. of programmable shocks

100-9900

Free Programs

User interface

- Color touchscreen tablet
- LCD screen on the handpiece

Handpiece included

Ergonomic, lightweight with integrated display and real time pressure indicator

Power supply

100-240V AC, 50-60Hz, 240VA

Dimensions LxWxH - Weight

430x320x150 mm - 16.6 Kg

STANDARD EQUIPMENT

- 1 ShockWAVE 2000 Med Line unit
- 1 Handpiece complete with projectile and guide tube
- 2 Handpiece holders
- 1 D20 head - Ø 20 mm
- 1 Tablet with software
- 1 Tablet holder
- 1 Spanner for handpiece maintenance
- 1 Cleaning brush for guide tube
- 1 Gel bottle 260 ml
- 1 Power cable
- 1 Operation guide
- 1 User manual

TRANSMITTERS HEADS SUPPLIED

D20 - Ø 20 mm

CE
0344

RADIAL SHOCKWAVE DEVICE | 66 PROGRAMS

PROGRAMS LIST

NECK

Temporomandibular arthritis

Trigeminal neuralgia

Upper cervical trigger points

Lower cervical trigger points

SHOULDER

Frozen Shoulder

Cervicobrachial neuralgia

Dorsal scapular nerve entrapment

Hemiplegic shoulder pain

Shoulder myofascial pain syndrome

Nonunion of shoulder fracture

Rotator cuff calcification

Rotator cuff tendonitis (Acute)

Rotator cuff tendonitis (Chronic)

Subacromial impingement

Subacromial bursitis

Tenosynovitis of long head of biceps

ARM

Lateral epicondyle humerus fracture

Medial epicondyle humerus fracture

Lateral epicondylitis of the humerus

Medial epicondylitis of the humerus

FOREARM

Radial nonunion

Carpal tunnel syndrome

Nonunion of the wrist fracture

Cubital tunnel syndrome

HAND

Finger arthritis

De Quervain's Syndrome

Dupuytren disease

Trigger finger

BACK

Low Back Pain

Dorsal trigger points

Lumbar trigger points

HIP

Greater tuberosity fracture

Pressure ulcer

Bone marrow edema

Prostatitis

Femoral head aseptic necrosis

Gluteal myofascial pain syndrome

Bursitis greater trochanteric

Groin pain

Ischemic femoral necrosis

Piriformis syndrome

THIGH

Chronic proximal hamstring tendinopathy

Iliotibial band syndrome

Osteoporosis

Quadriceps tendonitis

Adductors trigger points

KNEE

Patellofemoral joint syndrome

Chronic synovitis of the knee

Delayed bone healing

Goosefoot bursitis

Meniscus tear

Myofascial pain syndrome of the knee

Osteoarthritis of the knee

Patellar tendinopathy

CALF

Calf myofascial pain syndrome

Tibial periostitis

Stress fracture of tibia

FOOT

Achilles tendinopathy

Diabetic foot ulcer

Heel spur

Metatarsal tendonitis

Morton's neuroma

Plantar fasciitis

Stress fracture

Anterior Talo-Fibular Ligament injury

Deltoid ligament injury
